WEDNESDAY EVENING, NOVEMBER

THE ELECTIONS .-- The returns from the States in which elections have recently been held, show that the re-action is going on, and bids fair, we hope, to continue, until the plans and purposes of the Radical leaders, shall be utterly and hopelessly prostrated, defeated, and ended. The news of the spread of this happy reaction in public sentiment will be received and hailed with satisfaction and joy by the friends of peace, and the restoration of harmony and constitutional government, everywhere throughout the country. It will be considered a bright "bow of promise," in a hitherto dark sky, giving a cheering token of better days in the future.

The following is the comment of the Wash ington Chronicle upon the recent elections: With the exception of New York, where, in all probability, we shall lose a U. S. Senator, the results of yesterday's election present an Radicals. We have carried Massachusetts high and dry; triumphed in Kansas; and in

Michigan secured the ratification of the new

constitution which abolishes all distinction of

color in the exercise of the elective franchise.

The Copperheads carry one branch of the Legislature in New Jersey, and the rebels hold Delaware and Maryland."

We have heard a story of a man who once tried to "extrast sunbeams from cucumbers," but this exploit was nothing to the discovery that "yesterday's elections present an aggregate of substantial encouragement to the Radicala Lorr and and roll roll roll

A little while ago, General Beauregard appeared to be in high favor, for the nonce, with the Radicals. He wrote a letter which they 'said, was very "acquiescent" and they were disposed to regard him as quite "repentant," and an excellent "example." From some unexplained reason, they are now veering round and within the last two weeks have recommenced their old abuse of him. So of Gen. Longstreet-except that they simply have stopped praising him, and have not yet, "resumed actual hostilities."

We hope that the newspapers, North, and South, will not circulate any more "sensational statements concerning affairs in the South -which are bad enough, in truth, without exaggeration. We have confidence that the Military authorities, in case of necessity, will see to it that adequate measures of defence be adopted-but that necessity we hope and trust may not occur.

It looks very much as if the Radical leaders will have to depend almost entirely upon the colored people, in the South, and their few white allies there, for future "aid and encouragement. No wonder, therefore, that all their efforts and all their legislation will tend to the aggrandizement and power of the colored race, and to the depression and subjection of the white people.

It is believed that there are now going about Radical emissaries, connected with the Loyal Leagues, into which the colored people of this State have been "trapped and secured," who are busily engaged in fomenting disturbances in the South, and inciting their deluded tools to measures calculated to endanger the public peace.

We would be obliged to our friends in all the adjacent counties to communicate to us any matters of general interest or importance that may transpire in their neighborhoods—as our desire is to keep a record of public events in this section of the State for present information as well as future reference.

In Leavenworth, Kansas, on the day of the election, Mrs. Stanton and Susan B Anthony, who have been canvasing the States in favor of female suffrage, visited the polls of each ward and addressed the voters? probably the first ocurrence of the kind in this country.

THE REACTION GOING ON.

New York. In the city of New York the Democratic gain is 12,757 over last year's majority. Complete returns from the city give 59,818. The returns from the interior, though meagre, show that the Radical majorities will not be sufficient to overcome this tremendous majority in the city. Returns from Kings and River counties show no exception to the general rule. There are heavy Democratic gains everywhere. The State has gone Democratic by at least fifteen

or twenty thousand majori'y. In Albany the Democratic majority is 1,600. A dispatch dated this morning says: "The Democratic majority in the city is 60,169. The Legislature is probably Democratic, at least in the Assembly. All the Radical counties show a heavy falling off, and all the Democratic counties corresponding Democratic gains. The entire Democratic ticket in Brooklyn is elec-

Massachusetts.

About two-thirds of the State heard from Bullock's (Radical) majority will be about fif teen or twenty thousand, a Radical loss of forty thousand. Senate one-third Democrats; none last year; it will be three-fourths in favor of license. House-large majority in favor of license. The Democrats will have about onethird of the members. They had only seven teen last year. It seems as if the opponent of the prohibitory law made a very thorough sweep of the Senate. Nearly two hundred towns foot up as follows: Bullock, 73,924 Adams, 53,132. In the same towns last year Bullock had 68,010; Sweetzer, 21,000.

Boston gives 1,500 majority for Adams, Democrat. A gain of 6,000.

Illinois. The election passed off very quietly, only about a two-thirds vote being polled. General Osborne, the Radical candidate for State Treasurer, has 4,003 majority in Chicago, with one precinct to hear from. His majority in the county will probably exceed 5,000. J. M. Wilson, who ran as an independent candidate for Judge of the Superior Court, is beaten in the city by 640 majority. The Radicals will carry the State.

Kansas.

The returns from Kansas are meagre, but indicate that both female and negro suffrage are defeated by from 8,000 to 10,000 majority. Leavenworth gives from 1,500 to 2,000 majority against negro suffrage. The entire Democratic county ticket is elected. Topeka city and Shawnee county give about three hundred majority against negro suffrage. Salina gives a large majority against negro suffrage.

Maryland. In Baltimore the vote for Governor, was for Bowie (Conservative) 19,900; for Bond (Radical) 4,870. The Conservatives carry the State by a large majority. Maryland is more determined in her opposition to Radical rule than eyer. The counties are rolling in their Conservative majorities.

Wisconsin.

Seventy-five towns and cities (Milwaukie included) show a net Democratic gain of 1,700 over the vote of 1865, when there was a Radical majority of 10,000. Fairchild, Radical, for Governor, is probably re-elected. The Legislature is decidedly Radical.

New Jersey.

The elections show large Democratic gains. The House of Assemby will be Democratic. The Senate will have a small Radical majority. The Democrats will probably have a majority

on the joint ballot. Minnesota. Returns received from thirty cities and towns indicate the election of Wm. Marshall, Rad., for Governor by a small majority. Negro suffrage

His Excellency F. H. Peirpoint, Governor of Virginia: I have received letters from several members of the late Virginia Legislature, enquiring whether there would be a session of that body during the coming winter, and raising the question whether, under the State laws, members of the House of Delegates do not hold over until their successors are duly elected and qualified. Without deciding the latter question, upon which there seems to exist a diversity of opinion, I have to request that you will inform the members of the la'e Legislature that the regular session of the Legislature for the coming winter will be dispensed with.

Balls were sent whistling after them, but they, too, soon disappeared unharmed. Then presently a yellow wolf started up from his lair and rushed away from the noise of the locmotive; and directly after, three more antelopes were overtaken. NEWS OF THE DAY.

'To show the very age and body of the Times.

Dispatches from the western parts of New York state mention a severe storm which prevailed on Sunday night along the lakes and lake cities. Considerable damage to shipping is reported. The propellor Ackma foundered off Duokirk, and sunk in twenty minutes. Her captain and crew saved themselves by means of the small boats. At Rochester, a man was instantly killed by the wall of a grapery being blown down upon him. One of the walls of the State Arsenal was blown down, and several other buildings were more or less injured.

It is stated that the majority and minority reports of the Judiciary Committee on the subject of Impeachment, will be ready for sub mission to the House of Representatives on Thursday, the 21st instant. The majority report will be against impeachment, and will be signed by the same members who have heretofore voted nay on the proposition.

LETTER FROM FAIRFAX.

The Circuit Court of Fairfax, Judge H. W. Sun says: Thomas presiding, met on Monday. Grand Jury sworn and appropriately charged. They tound indictments against C. W. Turley and R. F. Turley, for assault, and presented Geo. Tucker, Commonwealth's Attorney, for continued acts of nonfeasance in office. In view of Mr. Tucker's declaration in open Court that the presentment was "the act of disappointed politicians" it may be as well to say that the presentment was made by a jury largely "loyal" in its material, and partly on the evidence of two distinguished and unimpeachable Radicals, one a magistrate of General Schofield's appointment, and the other a late member of the Board of Registration and Commissioner of PEQUOD.

A COMICAL FASHION REPORT.-A New York fashion correspondent of the Pittsburgh Gazette gets off the following:

Eyes continue to be worn, one on each side of the nose, and immediately under the brows. There has been some talk of substituting a single orb, of increased size and brilliancy, in the centre of the brow; but after all our achievements in lightning speed, the world moves slowly, and the idea of a change in the number of eyes to be worn has not been favorably received, notwithstanding its many advantages; but the color is varied to suit the occasion, and just now the prevailing tint is green-a fine sea green. This shade can be best acquired in Baden-Baden, by continued contemplation of the delicious toilettes of the demi monde, but may be obtained in Paris, Saratoga, or on Broadway. Black, blue and gray, are still worn in the home circle, and are found very becoming in the nursery, at the family tea-table, and social evening gatherings.

Noses maintain their position on the centre of the face. The Grecian or aquiline is generally preferred, but the snubs have held their places on very pretty faces, in defiance of a most determined opposition, and at present writing are looking up. A very pretty article of the Grecian type is now furnished by Goodyer, and it is not improbable that, in time, all other varieties may disappear.

Lips are midway between the nose and point of the chin, and are a pale pink. The cora variety is no longer tolerated, except in girls not yet come out.

Teeth will be somewhat larger, and of blueish tint, to correspond with the complexion which must be a dead white and magenta red. Ears are worn, one on each side of the head, with the hair all carried up so as to give then a peculiar appearance of alertness. There is some prospect of having them pointed, as the mistress of the Grand Duke of D- has a pet rabbit which is very much admired in European court circles.

Foreign News -A Paris dispatch of yesterday states that a battle with the Garibaldians took place at Tivoli. Three thousand of the insurgents were either killed, wounded or captured. Garibaldi and his son Menotti were captured, and had arrived at Spezzia, prisoners of war on board an Italian man-of-war. Four thousand Italians who were marching to reinforce Garibaldi had been disarmed and turned back. The greatest agitation prevailed throughout Italy. The Emperor Napoleon demands from the Italian Government an answer to the French ultimatum on or before Thursday next. At Berlin, however, it was thought that the defeat of Garibaldi and the dispersion of his forces cancels the ultimatum. At London it was reported that the Italian troops had recressed the frontier, and that Napoleon had received Gen. Marmora, the Italian Embassdor. The Vienna official journals declares that the policy of the Emperors of France and Austria is identical, and fir peace. Serious bread riots have occurred in Exeter, England. Every provision and bread shop in the city was sacked, and the rioters had kindled incendiary fires in various parts of the city. The Government had been petitioned to send troops to quell the disorder. The British Parliament has been called to meet on the 9th

EPISCOPAL CHURCH MATTERS IN NEW YORK .- The New York correspondent of the Philadelphia Ledger says:

Rev. Newman Hall is creating fresh scandal in the Episcopal Church by preaching in the Church of the Messiah, over in Brooklyn. last evening. The standing committees will have to look after that rector, while they are about it, as well as Rev. Colton Smith and Rev. Mr. Fry. On the other hand, however, the other extreme, the ritualists, are "developing" also. At the Church of the Annunciation yesteaday one of the clergy appeared in the vestments that are usually worn at St. Alban's-that is, a short surplice over a black tunic-besides which there was the choral service, with men and boys in surplices, and an "echo" choir up in the organ loft, invisible to the eye. St. Luke's, in Hudson street, they say, is manifesting similar tendencies.'

FROM LYNCHBURG -It is currently reported that Gen. Wilcox has gone to Washington to represent the necessity existing for the recention of the military lately ordered from this city, and to secure an addition to the force, if pos ible .-We hope that he may be succes-tul.
